SHUBHAM VHATKAR

ABOUT ME

Aspiring AI/MLEngineer with strong expertise in Python, Machine Learning, and data-driven problem solving. Experienced in building end-to-end ML solutions including data preprocessing, model training, evaluation, and deployment. Skilled in integrating LLMs and developing real-world AI applications aligned with business needs.

PROJECTS

1) AI Resume Screening System | Python, NLP, Scikit-learn
• Built NLP-based model to classify resumes using TF-IDF and ML algorithms
• Automated candidate shortlisting, improving screening efficiency
GitHub: github.com/Shubham8655/ai-resume-screening

2) House Price Prediction Model | Python, Scikit-learn
• Developed regression model with feature engineering and data preprocessing
• Improved prediction accuracy using Random Forest and tuning

EDUCATION

BE Computer Engineering
– Shrimati kashibai navale college of engineering (SKNCOE) Pune.
– CGPA: 7.39
SPPU pune University | 2020-2024

HSC
– ASM Junior College
– 66.92%
Maharashtra state board | 2018

SSC
– Shri shiv chhatrapati shivaji raje madhyamic vidyalay
– 90.40%
Maharashtra state board | 2018-2020

linkedin.com/in/shubham-vhatkar-314b98219

SKILLS

Python, NumPy, Pandas, Matplotlib, Seaborn
Machine Learning: Regression, Classification, Clustering
Scikit-learn, Model Evaluation, Feature Engineering
Generative AI: OpenAI API, Prompt Engineering, LLM Integration
SQL, MySQL, Git, GitHub

Courses

Data Science –
• Data Science, Machine Learning, Deep Learning & NLP Bootcamp
Udemy | Completed: 2026
• Generative AI with LangChain & Hugging Face
Udemy | Completed: 2026
